

a penny for your
thoughts

a way to ask someone
what they are thinking

at the drop of a hat

without hesitation;
instantly

best thing since sliced
bread

a good idea, innovation,
or plan

cross that bridge when
you come to it

deal with the problem when
it is necessary, not now

every cloud has a silver
lining

There is always good to
be found. Be optimistic.

hit the nail on the head

do or say something
exactly right

let sleeping dogs lie

leave the situation as it
is; do not disturb things

on the ball

understanding the situation
well; on top of things

piece of cake

easy or simple to do

take it with a grain of salt

Don't take what someone
says too seriously

whole nine yards

everything, all of it

break a leg

good luck

spill the beans

revealing a secret

under the weather

to feel ill or sick

once in a blue moon

happens rarely

speaking of the devil

the person you were
talking about just arrived

the last straw

the final problem in a
series of problems

jump on the bandwagon

join a popular trend or
activity
