

Math 7

Battleship Game Info

Number	Type of ship	Size
1	aircraft carrier	5
1	battleship	4
1	cruiser	3
1	patrol boat	2
1	submarine	3

1. Label each axes of your Cartesian plane. Label each axes with the appropriate numbers.
2. Plot the above boats on your Cartesian Plane. Write the coordinate pairs associated with each boat below. Be sure to use brackets and a comma!
Remember – for our version of this game, the boats do not fill spaces, they cover intersections of lines.

LOCATION OF MY SHIPS:

Aircraft Carrier: _____, _____, _____, _____, _____

Battleship: _____, _____, _____, _____

Cruiser: _____, _____, _____

PT Boat: _____, _____

Submarine: _____, _____, _____

3. Take turns with your partner trying to sink each other's boats. Call out your intended target and your partner will answer telling you "hit" or "miss" and which boat you hit, if you managed to find one. Your partner will tell you when you have sunk a boat completely. Continue alternating turns until one person's Navy Fleet is completely destroyed.
