#### **4.9 Develop personal and collective visions of national identity**

- [I Am Canadian. What Am I?](#)  
Interesting Blog on Canadian Identity. It provides a personal account of what is and is not Canadian. It celebrates that we lack a cohesive identity. A quote from the site sums up this perspective on Canadian identity. "When we say our identity is forged in negation, difference, and perhaps even the quest for identity, then we have what many others do not. Fluidity. We have seen what comes from old rules and old ways. Lots of conflict. Just as an identity can forge bonds it can also be the very source of heated internal conflict. Canada, on the other hand, can change its identity as the times change. Our differences are our strength."
