Lotsa Zeros Bump Game

 12	 14	 23	 26
 27	 28	 34	 42
 56	 61	 67	 75

Instructions: Player 1 chooses a card. They solve it and place a cube on the race car that has the correct answer. Player 2 chooses a card and solves it. If the race car is open, they place their cube on it. If the race car is filled with the other player's cube, they bump it off and replace it with their own. If the race car is filled with their own cube, they place their cube on it so there are 2 cubes. This can not be bumped off. If there are already 2 cubes on a spot, they lose their turn. The winner is the first person to use all their cubes OR the person with the most cubes on the board when the cards run out.

Materials:

- Player 1: 10 cubes of 1 color
- Player 2: 10 cubes of a different color
- The question cards – printed and cut apart
