Online Games and Puzzles

1. [Click here](#) to link to the Tower of Hanoi Puzzle (Illuminations)
2. [Click here](#) to link to the Khan Academy. Once at the website, search Brain Teasers and watch videos on a number of different puzzles
3. [Click here](#) to play the Battleship game.
4. [Click here](#) to play various online games (Solitaire, Freecell, Tetris etc.)
5. [Click here](#) to play Checkers.
6. [Click here](#) to play Pegs
Peg is a game of spatial reasoning. Try to clear the board by jumping pegs over other pegs, in either the horizontal or vertical dimensions. (Diagonals are not allowed). The "jumped" peg will be removed from the board. If there's more than one move available, select the move you prefer. The objective of the game is to have only one peg remaining. Good luck!
7. [Click here](#) to play Classic Connect-the-Dots
8. [Click here](#) to play 2048 online

Apps

1. [Mathdoku](#) -- Sudoku Style (This app is designed for both iPhone and iPad)
2. [2048](#) -- I had a little competition in my class on who can get the high score. I awarded a prize at the end of the year. I actually had students from other classes wanting in on the competition.
