M SO1 - The Ruler Game

(Link: [The Ruler Game](#))

This online Ruler Game provides great practice to get familiar with Imperial measurements. A metric ruler is also available.

The screenshot displays the 'The Ruler Game' interface. At the top, a green banner reads 'THE RULER GAME'. Below it, the title 'The Ruler Game - Learn to Read a Ruler' is centered. The game statistics are shown as follows: Score: 220, Timer On Sixteenths, Strikes: 3, Level: 2, and Timer: 1. A ruler is displayed with markings from 1 to 4 inches. Below the ruler is a 'Click on:' input field. To the left, there are navigation links: Home, Buy a License, Metric Ruler Game, Android App, iOS App (iPad / iPhone), and Contact Us. Social media links for Facebook (191 likes), Twitter (@RulerGame), and Google+ (+37 recommends) are also present. A 'Why Learn to Read a Ruler?' section explains the importance of reading a ruler. A 'Preferences' panel is open, showing a 'Start New Game' button, a 'Timer' toggle set to 'On', and an 'Increment Level' section with three options: 'Sixteenths' (selected), 'Eighths', and 'Quarters'. Each option is accompanied by a small ruler icon showing the corresponding increment.

M SO1&2 - Measurement Systems Videos

These two videos provide a nice introduction to measurement systems, referents and measurement conversions.
